<sup>1)</sup> Corresponds to end of production.

<sup>2)</sup> LB corresponds to low/passing beam, HB corresponds to high/driving beam.

<sup>3)</sup> The specified high beam index I'M with H7-LED differs from the specification on the headlamp. The permissible sum of the main beam characteristics of all main beam headlamps must not exceed 100. Reference mark I'M with H7-LED for the main beam of each model is as below.

<sup>4)</sup> In the event of an error message, the optional CANbus must be used.

<sup>5)</sup> Vehicles (SO.KFZ Wohnmobil and other classes / body types) are also approved whose headlights correspond to the listed UN(ECE) type approval and have received a multi-stage approval on the basis of the named basic vehicle.

<sup>6)</sup> The road approval of the Bosch LED Powerlight+ is only valid if installed where required with Bosch original accessories. Please check the compatibility list to see if additional accessories are required for your vehicle.

<sup>7)</sup> The year of production is not relevant for the approval. It serves as means for orientation.

<sup>8)</sup> Note W5W-LED: The interior lighting of the vehicle, unlike the exterior light functions, is not subject to any legal restrictions regarding vehicle model or light function. Here, the W5W-LED can be used freely, wherever applicable, as a replacement light source.
