

LED Shine Exchange

Hand lamp

LED Shine Exchange - the multifunctional hand lamp for professionals. The interchangeable light attachments (tool-free click in system) enable flexibility and provide the right lighting conditions for every situation. This makes it easy to illuminate larger surfaces, difficult-to-access areas in the engine bay, spot illumination or use in confined spaces. Other features include a fold-out hook, a charge/battery status display

and a magnet. The set consists of a handle with an integrated battery and three lamp attachments

- Torch (5 W LED / 300 LM, focusable, 180° kink- and 360° rotating)
- Inspection lamp (1 W LED / 80 LM, flexible swan neck, magnetic illuminated head)
- Workshop light (6 W LED / 600 LM, with TOP LED (1 W / 100 LM), 180° bendable and 360° rotating)

IP Code: IP 44
